

214 / 230

训练臂损伤“信息不足应答不可答”能力的比例

(the only 16 exceptions are all step-checkpoints of one synthetic run, bend_f)

Criterion: mean R over the 8 INSUFFICIENT cells < 0, i.e. strictly below base (0.4625). Data: prescription/p0c/p0c_scores.json, n = 230 trained ckpts. NOTE: corrects the “230/231” in NOTES_p0c_pilot.md (tally error; see correction appended there).
